

Green Team Meeting

Tues. Sept. 22nd, 2015

1pm – 2pm

A225

Pizza provided

**Green
Team**

Agenda

- **Yearly Planning**
- **On-Campus Power Savings Campaign**
- **GreenSpeak Seminars**

In collaboration with the Centre for Sustainability, UFV's Green Team is a cross-functional team that represents staff, faculty, and students in which discussions on sustainability during in person meetings three times a year (September, January and May). The team's goal is to implement projects and campaigns that will encourage sustainable actions across campus. Supported by BC Hydro's Workplace Conservation Awareness Program, the team's primary focus is on reducing energy consumption at the university and is, and will continue to be, the primary focus at its meetings. We welcome any members to share ideas on what should be a priority at UFV, and what activities and communication strategies would be most effective to green all UFV campuses.
